

RED HORSE and Prime BEEF Association Convention/ Reunion October 8-12, 2019

Take an alternate tour on Friday October 11th

HOOVER DAM

A tour of the iconic Hoover Dam. Thanks to your friendly, and knowledgeable, tour guide, you'll learn so much about what you're seeing at the colossal structure. If you're fascinated by engineering and electricity, you'll appreciate the tour of the power plant, located 530 feet below the surface. You'll also visit the 650-foot-long Nevada wing with eight huge generators that help power the dam so it can deliver millions of gallons of water around the Southwest. You will have seen the best sights the Hoover Dam has to offer before returning to our hotel.

A tour company from Vegas does not make a stop by our hotel. So we contracted with a tour company for a custom tour. We will leave the hotel at 9 AM and return to the hotel about 1 PM. The cost will be \$77 which includes a \$5 tour guide tip. We must have 20 to go with a max of 28 for a mini bus, or if we have 40 we can go to 54 in a coach. Mark the HOOVER DAM TOUR on our registration form. We need to know if you need a bus with a wheel chair lift. We need to order the tickets by August 30th.
